What is CSUBUY?

CSUBUY is the first step in transforming the way the CSU manages the Procure -to -Pay process. This change creates a foundation for future implementation of automated workflow, requisitioning, purchase orders, and AP functionality through integration into CFS (Common Financial System) and Oracle.

The Campus Marketplace is a collection of supplier catalogs with CSU contracted pricing. The marketplace provides P-Card users discounted pricing and suppliers a trade portal for selling their product through a "Supplier Hosted Catalog."
